Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ____ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 May 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-8, 13, and 14-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Kitamoto et al.

Kitamoto et al teaches a plurality of longitudinally-spaced passenger seating unit having a seat with a base frame and main frame and ancillary furniture. The seating unit is attached to the floor of an aircraft via tracks that are not parallel to the seating unit. The seating unit also has a sleeping suite that is attached at a second location (near where numeral 11A is pointed to) that is longitudinally spaced from first location (near where 11B is pointed to). See figures. Since the track is curved and defining the longitudinal track axis, the longitudinal track axis will form an angle with the longitudinal seat axis that is greater than zero. The longitudinally space seats have axis that are parallel. The angle is fixed at greater than zero when the seating unit is fixedly attached to the track. In another interpretation, the seat 5 is inclined (as best shown in figure 7), its longitudinal axis is at an angle greater than zero than the longitudinal track of the floor. This meets what has been claimed.

Response to Arguments

The examiner has rejected the amended claims using the Kitamoto et al reference above. The amended claims are broad enough that Kitamoto et al indeed show that the longitudinal seat axis and the longitudinal track axis defined a fixed angle greater than zero when the passenger seating unit is fixedly attached to the track. Please see the attached drawing.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
